Trees shall be trimmed to a height of ten feet (10') above the curb, on the curbside, or twelve feet (12') above the street, on the street side. Other vegetation shall be trimmed back behind the curb on the street side or behind the sidewalk on the park strip and house sides. Trimming will allow snow removal equipment to pass

without damage to the snow removal equipment, and to also allow for proper clearing of snow, sleet and/or ice from curb to curb or the full width of the street.

- B. **Obstructions; Mailboxes:** All property owners and/or occupants shall keep all curbs and gutters abutting their property and streets in front of their property free from obstructions including trees and other types of vegetation that will hinder the removal of snow, sleet and ice from the street. Any obstruction that will hinder the removal of snow, sleet and ice from the curb or street shall be deemed unlawful. In order to minimize the possibility of being struck by snow removal vehicles, the front most part of the mailbox shall not extend into the street farther than the heel of the innermost part of the curb. Where no curb exists, the front most part of the mailbox shall be set at least two feet (2') from the edge of the pavement. The city shall not be responsible for damage to mailboxes which are improperly located or which are damaged by the force or weight of snow thrown by snowplows.
- C. **Parking Prohibited:** In order to reduce the number of obstructions which hinder the efforts of city snow removal crews, it shall be unlawful to park a vehicle, recreational vehicle, or any equipment on a public street within city boundaries at any time whenever snow is accumulating, or at any time between the hours of twelve o'clock (12:00) midnight and eight o'clock (8:00) A.M. from November 1 to April 1, unless by special permission from city management. (Ord. 2007-11, 2-7-2008)
- D. **Sidewalks:** It shall be the responsibility of the owner and/or occupant of any property abutting any sidewalk to remove, or cause to be removed, from such sidewalk all snow, sleet or ice falling thereon within a twenty four (24) hour period after the snow, sleet or ice has ceased falling.
- It is unlawful to leave snow removed from private property, sidewalks, driveways, drive approaches or other public places into a street or any other public right of way. Violation of this subsection constitutes a class B misdemeanor. (Ord. 2008-01, 2-7-2008)
- E. **City Refusal To Plow:** It shall be the policy of the city that snow removal crews will be instructed to avoid plowing those areas of the city streets where obstructions (vehicles, trailers, other objects, etc.) exist which have the potential of damaging snow removal equipment, or being damaged by snow removal equipment.
